I work for YOU -- not "the store"

Avoid costly mistakes! Seasoned interior designer consults by the hour on all aspects of interior or exterior projects. 3D space-planning services also available so you can SEE before you buy or build. You can relax and trust my advice as I will never try to maneuver you into a given purchase of any sort as I do NO retailing whatsoever (unlike most designers/decorators who are typically commissioned salespeople). Instead, my primary focus is on equipping you to make smart, well-informed decorating decisions while creating the stylish just-right home you're envisioning. With over 20+ years experience, I'm a seasoned interior designer and also offer 2D & 3D scale renderings so you can SEE before you buy or build and cost-effectively test drive ideas on paper first. Additionally, I've been quoted as a featured interior design expert in an array of publications including AOL, National Home Furnishings Assoc., Chicago Tribune (nationally syndicated column), BobVilla.com, et al.

Project: [Interior Decorator](#)

Sam helped me pick paint colors and gave me some useful decorating tips. I also enjoyed her company. It was a fun and productive hour. I would hire her again.

Project: [Interior Decorator](#)

My daughter and I wanted a preliminary consultation for colors, flooring, and lighting before we started our project (barn conversion). We specifically wanted a designer not attached to a retail store so she'd be free to recommend products without regard to her employer. Ms. Jernigan was friendly, professional, and skilled and we will ask for her assistance again.

Project: [Design a Building \(Non-Architect\)](#)

Sam Jernigan has helped with exterior and interior design details for a home we are building. She provided expert advice regarding exterior colors: stone, paint, roofing and gutters. All the trade professionals have mentioned how much they like the exterior colors and finishes. And we couldn't be more pleased. Sam took our ideas and guided us toward a home that is handsome and stately on the outside. Assessing the interplay of our very deep porch and available light, she recommended a light trim for the porch ceiling, and it is just perfect. We are so proud of our home's curb appeal, thanks to Sam. Sam also helped us choose interior paint colors, honoring our trepidation toward anything too colorful! We are so happy with our subtle shades of cream. Sam noticed our kitchen architecture resulted in less light than in adjacent areas of the house, and used her CAD drawing skills to create an "outside of the box" kitchen design that capitalized on available light. Elsewhere in the house she has advised on materials and colors for the master bathroom, and a palette for our stone fireplace. My husband and I keep remarking on how glad we are to have hired Sam, and that her services have been worth every penny. Sam is kind and cheerful, and listens carefully to understand how we want our home to feel and look. She is punctual and flexible with her scheduling. Our project isn't finished, and we are looking forward to continued work with Sam. She's great!

Project: [Design a Bathroom](#)

Sam could see things that I could not have imagined for my bathroom. Good ideas and as little or as much help as I need. Phone and on-line support. I'm not finished yet, but know which direction I'm going.
